CAREER OBJECTIVE

To build a successful career as a web developer, continually enhance my skills in modern frontend and backend technologies while contributing to impactful projects, collaborating with teams, and creating innovative, user-focused applications.

WORK EXPERIENCE

Full-Stack Developer, TheMothersHub.com (freelance) **April 2025 - Present**

- Building a wellness-program site with React.js (frontend) and Flask (backend).
- Created a reusable React component set, added code-splitting and image optimizations to speed up loads.
- Designed SQL schema, added indexes, and stabilized REST APIs for smoother integrations.

Frontend Developer, Fursume.com (freelance) **Mar 2024 - Dec 2024**

- Developed a pet resume and travel card generator with React.js and Tailwind CSS.
- Shipped accessible, mobile-first forms with client/server validation to reduce submission errors.
- Integrated backend REST APIs and collaborated with the team to deliver a clear, engaging UX.

Frontend Developer, PlayChike.com (freelance) **Nov 2023 - Jan 2024**

- Built the referral-rewards interface with React.js and Tailwind CSS, integrating blockchain-based flows.
- Connected REST endpoints and implemented state management for reliable rewards logic.

EDUCATION

Bachelor of Science (BSc) – Computer Science and Engineering **Apr 2023 - Present**

American International University-Bangladesh (AIUB), Dhaka

- CGPA - 3.86 (as of Spring 2024-2025)

Higher Secondary Certificate **2021**

Rajbari Government College, Rajbari

- GPA - 5.0, Department: Science
